

My name is Colin Maslin.

I only got the Garden Railway bug in February this year when I purchased a LGB DCC starter set.

I have since bought some extra track, a 1200mm long LGB bridge, a Piko house, made a few timber track supports, etc., and ran a circuit of track and a siding around my existing pond.

I joined the club in May, and attended my first Running Day on Saturday, 13 July at the home of Frank and Faye Anderson at Glenmore Park.

I brought my partner Erica, and my father Noel along.

I took some great photos, spoke to some very knowledgeable people, and took away heaps of information and inspiration away to get more into what seems like a limitless, challenging and fascinating hobby.

In the post-day briefing in the car on the way back to Haywards Bay (when we were all awake), we all agreed that we had a wonderful day and were all made to feel very welcome.

I would like to personally thank Frank and Fay (and their dog Duchess), for being such inviting hosts and putting on the tea and coffee, food and facilities and allowing us to take over their home, and also thank all who attended to make us all feel like we were part of a very warm and friendly family.
